I'M NEHEMIAH CLARK —

**DJ, Event Host, and Creative Force Blending Music, Energy, and Experience.**

I work with clients who want more than a DJ — they want a vibe. A curated experience. Someone who can shift the energy of a room, tap into the crowd, and create something unforgettable. From high-end weddings and branded activations to wellness events and corporate galas, every set I play is designed for your moment — not a recycled playlist.

With a background in television, music, and live performance, I bring stage presence, intentional energy, and over two decades of experience to every event. From virtual sets to destination stages, I'm here to move people — not just with music, but with meaning.

# Luxury Wedding DJ

When it comes to weddings, I don't just play music – I help create the moment. From your first dance to the last song of the night, every beat is designed to reflect your story and set the perfect tone for your celebration.

With an open-format style and years of experience across all kinds of weddings, I read the crowd and guide the energy throughout the day – from the ceremony to cocktail hour, dinner, and the full-on dance floor. No generic playlists, no cookie-cutter vibes – just a personalized soundtrack and a presence that keeps the party flowing and the memories unforgettable.

# Corporate | Brand Events

Whether it's a product launch, team celebration, conference, or curated brand moment, I bring music that amplifies your message and keeps people engaged. It's not just about sound – it's about energy, timing, and understanding how to move a room without stealing the spotlight.

With a deep knowledge of music across genres and a talent for reading the crowd, I craft custom sets that elevate your event without overpowering it. I've worked with global brands, wellness-forward companies, and creative teams to build experiences that leave lasting impressions – on stage, online, and in every vibe-filled detail.

# Private Party | Events

---

Whether you're celebrating a milestone birthday, hosting an exclusive afterparty, or throwing a once-in-a-lifetime gathering, I bring the energy, professionalism, and musical instinct to make it unforgettable. With over 20 years of experience as a private event DJ and emcee,

I curate open-format sets that match the crowd, the setting, and the energy you want to create. No cookie-cutter playlists – just real music, real connection, and a packed dance floor. Available for private events nationwide and internationally.

# Yoga | Wellness Events

---

Yoga and Reiki certified, I understand a wellness event isn't just a gathering – it's a journey inward. Whether you're guiding a yoga class, leading a meditation, or hosting a transformational retreat, every sound matters. I create intentional soundscapes that elevate the energy, deepen the experience, and support your community's connection.

From ambient textures and breathwork rhythms to deep house flow and chakra-focused frequencies, I customize every set to match the moment. Whether it's a sunrise yoga session, a digital sound bath, or a full-day retreat, I provide the music and energy to help people ground, release, and expand.
